## MyRoad Online Trainings on RISE

While waiting for the program to be officially launched, some trainings are already available on RISE. We invite you to explore your training options. Here are some of them:

### Constellation

The goal of this initiative is to create a constellation of career examples that will be both inspiring and educational. Each module the unique career path of individuals having received a training in science and now working in a wide variety of sectors.

Constellation

### Presentation Techniques

The goals of the science presenter are to impart knowledge and enhance audience insight. Strategies in presentation development and delivery can play a critical role in how well these goals are met. This session will discuss tools and techniques - both conceptual and practical - that can make any session more impactful.

Presentation Techniques

### Current Concepts in Cardiometabolism, Diabetes and Obesity

This section of the training program address the four pillars of health research as they relate to obesity, diabetes and cardiometabolism.
