## 2025

### Happy New Year!

We wish you a successful year, filled with enriching encounters and new opportunities. This year, MyRoad is once again planning some great training and mentoring activities for you. We hope that this program will meet your expectations and enable you to pursue a training path tailored to your needs.

---

## Some news from MyRoad

### Health Research Exchange Competition 2025

MyRoad is launching its **2025 Health Research Exchange Competition**. The competition invites trainees and early career investigators to propose collaborative research projects in the areas of cardiometabolic health, diabetes and obesity, with the goal of complementing their training path with experiential learning opportunities in another research group (i.e. in another centre located in Canada or internationally).

To get all the information and submit your application, visit the platform website.

### MyRoad Core Training and Mentoring Program: Fundamentals Level

The fundamentals level of the basic program is available on the RISE platform. We remind you that a **\$500 travel award** will be drawn among those who have completed the program each semester. The forums on Current Concepts in Obesity, Diabetes and Cardiometabolism and on Knowledge Mobilization and Implementation that the level requires will take place later this winter or early spring. Dates will be announced soon, so stay tuned.

## Upcoming Event

## Webinar Passerelle

There is still time to register for the webinar **On Care: A Conversation with Dr. Victor Montori on Person-Centered Care and The Patient Revolution**.

Dr. Montori, a leading expert in health services and patient-centered care, will discuss the future of care, shared decision-making, and minimally disruptive practices.

On Care Webinar

## Anti-racism Training Session

There is only a few spots left to participate to the Anti-racism Training Session that will take place Tuesday, February 4, 2025, from 10:30 a.m. to 5:00 p.m. at the Cheribourg Hotel, Orford. This session offered in partnership with Indigenous patient partners from the CAN-Solve CKD and Diabetes Action Canada SPOR networks offers a unique opportunity to gain insight into the diverse initiatives, collaborations, and contributions led by Indigenous patient partners from across Canada.
